

PRESS RELEASE

**Energy S.p.A. is attending two renewable sector trade exhibitions:
KEY Energy in Rimini and MCE Expocomfort in Milan**

*The two events will be held respectively from February 28 to March 1 at the Rimini Fair
and from March 12 to 15 at Milano Fiera in Rho.*

*On display the complete range of residential, commercial & industrial and agrivoltaic storage
solutions by Energy SpA*

Sant'Angelo di Piove di Sacco (Padua), February 20, 2024 – Energy S.p.A., an integrated energy storage systems producer and listed on the Euronext Growth Milan market, (ISIN Code IT0005500712, Ticker ENY), in February and March will attend **two trade exhibitions**. These events are pivotal in Italy and abroad for the entire renewable energy sector and provide significant training and information opportunities regarding energy and the acceleration of the energy transition process.

Energy S.p.A. is attending:

- **“[KEY The Energy Transition Expo](#)”** from February 28 to March 1 in Rimini. This will be an opportunity to showcase the complete zeroCO2 range, spanning from residential (small size) to XL size, specifically designed for **commercial and industrial (C&I)** and **agrivoltaic** sectors.
- **“[MCE – Mostra Convegno Expocomfort](#)”** to be held from March 12 to 15 at Milano Fiera in Rho (Milan). Here, Energy S.p.A. will present the **XL range (XL Shell and XL 100)**, all-in-one solutions designed for both outdoor and indoor applications, tailored for businesses and agricultural companies, and compatible with the incentives of the “Parco Agrisolare” tender.

Energy S.p.A., founded in 2013 by Davide Tinazzi, Andrea Taffurelli, and Massimiliano Ghirlanda, and listed on the Euronext Growth Milan market of Borsa Italiana since August 1, 2022, is a company based in the province of Padua, a leading player in the field of energy storage systems, catering to both residential and large-scale applications. These systems enable the storage and release of energy based on the energy needs of customers. As of June 30, 2023, Energy has sold and installed over 60,000 systems across the country, serving residential, commercial, industrial, utility, and electric mobility markets. The production value as of June 30, 2023, stood at 40.1 million Euros, with revenues of 39.3 million and a net profit of 5.5 million. Among the most notable projects completed are the large facility in Comiso, Sicily, consisting of an agri-voltaic plant and a photovoltaic field; the major plant dedicated to CAAB in Bologna; Smart Grids in numerous municipalities in Sardinia and Lombardy; a Condominium Energy Community in Switzerland where individual nodes exchange energy as needed. Energy's sales channels include both general electrical material distributors and photovoltaic specialists, and the company also collaborates with major European EPCs. Energy's logistics proximity to the main distributor locations has led the company to establish strong partnerships with players in the Italian and European markets. The company procures components from leading international suppliers and combines them with proprietary software called "ZeroCO2" to create systems compliant with European Union standards.
