

PRESS NOTE

Energy in Paris to attend the Conference organized by Investor Access

Sant'Angelo di Piove di Sacco (Padua), March 27, 2024 – **Energy S.p.A.**, (ISIN Code IT0005500712, Ticker ENY) an Italian company listed on the Euronext Growth Milan market, leader in energy storage system from renewable sources (ESS, Energy Storage System), announces its participation on **April 4, 2024 at the Investor Access Event**, an event supported by Euronext, dedicated to bringing together listed European SMIDs and institutional investors.

Management will meet with the financial community to share financial results as of December 31, 2023, updates on business strategies, and growth prospects in the target market.

TWIN, a company specialized in Corporate Communications and in Investor Relations advisory, is partner of the event.

The event will take place at the Cercle National des Armées, 8 Pl. Saint-Augustin, 75008 in Paris.

The institutional presentation will be made available at <https://www.energysynt.com/en> "Investors/Presentations" section and at www.emarketstorage.it

Energy S.p.A., founded in 2013 by Davide Tinazzi, Andrea Taffurelli, and Massimiliano Ghirlanda, and listed on the Euronext Growth Milan market of Borsa Italiana since August 1, 2022, is a company based in the province of Padua, a leading player in the field of energy storage systems, catering to both residential and large-scale applications. These systems enable the storage and release of energy based on the energy needs of customers. As of June 30, 2023, Energy has sold and installed over 60,000 systems across the country, serving residential, commercial, industrial, utility, and electric mobility markets. The production value as of June 30, 2023, stood at 40.1 million Euros, with revenues of 39.3 million and a net profit of 5.5 million. Among the most notable projects completed are the large facility in Comiso, Sicily, consisting of an agri-voltaic plant and a photovoltaic field; the major plant dedicated to CAAB in Bologna; Smart Grids in numerous municipalities in Sardinia and Lombardy; a Condominium Energy Community in Switzerland where individual nodes exchange energy as needed. Energy's sales channels include both general electrical material distributors and photovoltaic specialists, and the company also collaborates with major European EPCs. Energy's logistics proximity to the main distributor locations has led the company to establish strong partnerships with players in the Italian and European markets. The company procures components from leading international suppliers and combines them with proprietary software called "ZeroCO2" to create systems compliant with European Union standards.
